

# Vacancies

Working at VINCI Energies means that you contribute to everything that makes everyday life easier, more pleasant and safer while preparing yourself and the world for the future.

## Contribute to the world and develop yourself

Working at VINCI Energies means that you contribute to everything that makes everyday life easier, more pleasant and safer while preparing yourself and the world for the future.

Our ambition is to create an environment that allows everyone to develop his or her talents. Our policy is focused on the development of your skills and advancing your career options within our organisation. Through training, through integration within our network organisation and by encouraging young employees and their mobility. Discover the different career opportunities that we can offer our employees. The most current vacancies can be found on the websites of our brands: Actemium, Axians, Omexom, VINCI Facilities, Cegelec Fire Solutions and Van der Linden & Veldhuis.

Specialistes continuous supply their contributions in the Netherlands VINCI Energies that improve everyday life in many areas. Improvements for industry, cities, buildings and networks. They do so from 45 business units throughout the Netherlands. They serve the market with a wide range of services within four business lines: Infrastructure, Industry, Service Sector and ICT. Within these business lines we have specialisms and expertise labeled by the network brands Omexom, Actemium, VINCI Facilities and Axians.

- Actemium: services during all phases of the life cycle of industrial processes: from advice and engineering to realisation, commissioning and maintenance.
- Axians: design, implementation and management of ICT infrastructures and software, hardware and tailored services.
- Omexom: services for any voltage requirement in the field of generation, transmission, distribution and transformation.
- VINCI Facilities: technical expertise, administration, management and services for the building-related and
