

# Manifesto

Eight commitments that set out our path towards corporate social responsibility.

## Our path towards Corporate Social Responsibility

All VINCI Energies employees endorse the VINCI Group's principles regarding Corporate Social Responsibility. To make it easy for everyone within the group to familiarise themselves with these principles, VINCI has summarised the key aspects of corporate social responsibility in the form of a number of 'beliefs'. These beliefs in a compact way reflect what we stand for and what we work on, on a daily basis. They reflect our principles and points of reference for working on our role and our functioning in society. And for entering into a dialogue with our public and private partners

concerning our role in society, and the social and environmental impacts of our collective activities. We refer to these eight commitments as our Manifesto and they are derived from the objectives of the UN Global Compact, to which VINCI is a signatory.
